

**Are you looking for aerospace projects in Africa
that require the products and services you supply?**

**Are you interested in exporting your products and services
to Africa, but have questions about financing these exports?**

If you want answers to both questions, then don't miss:

**THE U.S. DEPARTMENT OF COMMERCE
PANEL PRESENTATION AND ROUNDTABLE DISCUSSION ON
U.S. FINANCING OF
AEROSPACE PROJECTS IN AFRICA**

**March 19, 2002, 1:00pm-4:00pm, Herbert Hoover Building,
14th St. & Constitution Avenue, Room 6057, Washington, DC**

Come and hear a panel of experts speak on financial resources available to potential U.S. exporters. Find out about actual South African aerospace projects which may include requirements for your company's unique equipment and technologies. Representatives from public and private financial organizations will be available to answer your questions.

You may even decide to participate in the Office of Aerospace's proposed October 2002 trade mission to South Africa, where meetings with civil aviation decision makers at regional airports may lead to U.S. trade opportunities for aerospace projects such as:

- \$140 million installation of 18 navigation aid systems at 12 regional airports in South Africa.
- Cargo facility overhaul at 4 of South Africa's regional airports and one greenfields cargo development project at Vereeniging Airport, south of Johannesburg.
- \$100 million overhaul of Vereeniging Airport involving main runway and feeding taxiway construction, installation of an instrument landing system, navigation equipment and runway lights, tower equipment, apron construction, baggage handling.
- Requirements for composite materials and rotor blades for helicopters.

If you would like to join us, contact Karen Dubin, U.S. Commerce Department, at 202/482-3786, or email karen_dubin@ita.doc.gov, or fax this form to 202/482-3113, by March 10, 2002. Information about your product line and specific interests would be appreciated in advance so we can address your individual needs.
